# Meeting minutes

| Date: | February 28, 2017 | Start: | 06:24 PM | End: | 07:04 PM |
|---|---|---|---|---|---|
| **MEETING CALLED BY** | | Dr. Chandan Kumar, Korok Sengupta, Raphael Menges | | | |
| **NOTE TAKER** | | Denise Dünnebier | | | |
| **ATTENDEES** | | Ramin Hedeshy, Steven Schürstedt, Arsenii Smyrnov, Min Ke, Denise Dünnebier | | | |

## Agenda Topics

AGENDA TOPIC: DJANGO TEAM                    PRESENTER: MIN KE

| **ISSUES** | |
|---|---|
| New functions for search and similar videos were presented. | |
| Actual there is a separation between the most relevant video and the history. That should be combined. | |
| **CONCLUSIONS** | |
| The ranking of the videos should be sorted by a combination of relevant videos and history. | |
| **TASKS** | **PERSON RESPONSIBLE** |
| Combine relevance and history (Find a solution for that problem; maybe normalization [0,…,1]) | Django Team |

AGENDA TOPIC: RAPHAEL`S E-MAIL                    PRESENTER: RAPHEL M.

| ISSUES | |
|---|---|
| The approach of Raphael's e-mail was presented. | |
| **CONCLUSIONS** | |
| Use this approach in the webpage. | |
| **TASKS** | **PERSON RESPONSIBLE** |
| Try to implement the approach in our project. | Frontend-Team |

AGENDA TOPIC: FRONTEND TEAM                    PRESENTERS: RAMIN H., STEVEN S.

| **ISSUES** | |
|---|---|
| The star and emotion ranking were presented. | |
| The logo was presented. | |
| The full screen mode was presented. | |
| Some new placeholders on player page were presented. | |
| **CONCLUSIONS** | |
| The webpage should be usable with a standard browser and with GazeTheWeb. In the standard browser we can use the mouse wheel for scrolling and in GTW we can use the already given scrolling function. Therefore the buttons for scrolling are not necessary and can be deleted. | |
| Use the approach that Raphael mentioned in his e-mail and be creative. | |

| TASKS | PERSON RESPONSIBLE |
|---|---|
| Modify the webpage so that we can use it for standard browser and GTW. | Frontend Team |
| Logo: Make the circle a bit bigger and replace the sensor image with a play icon and overlay it with the structure of the sensor image | Frontend Team |

| NEXT MEETING | March 14, 2017 |
